They think if Roberts is seated it will simply fasten polygamy upon knock the bottom from under the disgusting and mischievous system. The common opinion here is that Roberts was elected for the express purpose of lifting up and honoring polygamy. For he was nominated against the protest of a strong minority of his own party, who objected on the ground of his being a polygamist. And many of this minority refused to support him. But the overwhelming majority of the convention were Mormons, and they were determined to

It is practically the rebellious attempt of a whole state to exalt polygamy by forcing it upon Congress. Why, if we wanted to pass a law right here in our State, making polygamy and polygamist marriages publicly lawful from this day on, and forever more in the State, neither Congress, nor the Senate, nor the President, nor all the committees of clergymen and wo-men in America could do anything After mentioning other cases, about it." This is a fair sample of the general opinion of the church officials, although they are not all frank in its expression. It should be borne in mind, however, that the nonunseated, not because he is a Mor mon, but because he is a law-break ing polygamist, and is false to the
